# EVERYDAY SPEECH

## Joining a Group Playing

Asking before joining a group is always smart! They may be in the middle of a game and feel interrupted if you jump in.

What did Julie do that made the group feel unhappy?

What did she say when she wanted to join in?

What would you have said in the situation?

### TELL HOW YOU COULD JOIN IN EACH SITUATION

You see a group sitting at lunch but aren't sure if any seats are open

A group on the playground is playing with yo-yos

A group is working on homework. You had questions about it too
