EVERYDAY SPEECH

Playground Conflict Resolution

We all have conflict with friends or people we're with some times. To solve these use cooperation, perspective taking, and working together. If you can see a problem from someone else's side and work together, you can solve the problem!

What was the conflict on the playground?

How did Christine feel about the problem? How did Andrew feel?

How did they cooperate and work together to find a solution?

HOW COULD YOU TRY TO SOLVE EACH CONFLICT OR PROBLEM

Someone you don't know took your basketball and is using it. You put it down to stretch and want to play now.

You need 3 more people to play four square. Two friends wants to play but one wants to jump rope.

A group has been using the swings for an hour and won't give anyone else a turn.
