# EVERYDAY SPEECH

## Observing Others

When you're not sure what to do in a situation you can observe others. Observe means watch others and see what they do. This can help you know how to act in a new situation.

Why did Andrew feel nervous?

How did he learn how to play the game?

What were two rules of the game that Andrew learned?

### THINK ABOUT OBSERVING OTHERS IN DIFFERENT SITUATIONS

Think about students in the library. How do they act?

Think about students in the cafeteria. How do they act?

Think about students during class. How do they act?
