# Everyday Speech

## SILLY VOICES

It might feel good or be fun to talk in a silly voice or make noises but we need to think about where we are and who is around us. It could make others feel uncomfortable if we do this. At school, it could be very distracting.

1. How do Devin and Julie feel when Christine talks in a silly voice a lot?
2. Why would this make her friends feel uncomfortable?
3. What did Christine learn about talking with a silly voice? Is there a better time and place she can use it?

**HOW COULD EACH PERSON CHANGE THEIR BEHAVIOR TO MAKE OTHERS FEEL MORE COMFORTABLE?**

Dan is singing loudly during study hall.

Shana whistles during the vocabulary quiz.

Ethan laughs loudly every time his friends talk.
