ASKING FOR CLARIFICATION

If we're ever uncertain we can ask clarifying questions. This means we check to make sure that we know. We can use these in school or during conversations. Make sure to state what you've heard back to be sure that you understand.

Read and answer each question below.

1. What did Zach say to ask a clarifying question?

2. What would have happened if Zach never asked his question?

3. If you had a question about what you should be working on at school what would you say?

REVIEW

Role play a conversation where you're talking with a friend about her trip to Florida and you're confused about what she means. It's not clear if she already went or is going later.
