# Everyday Speech

## Problem Solving

When we solve problems, we need to decide if they are big or small, if we need help solving them, and try out different solutions.

### PROBLEM

You need to attend a student council meeting but do not have a ride home.

You want to use the living room TV but your sister is watching TV now.

You have an argument with your friend. You want to make up but aren't sure what to say.

The student sitting next to you is humming very loudly, making it hard for you to do your work.

You get an invitation to a birthday party this weekend but you have to work.

### SOLUTION

Politely ask them to be quiet because you are trying to do school work.

See if there is something you both can watch or ask her if you can use it later.

Ask a co-worker to switch days with you or talk to your boss.

Ask a friend to give you a ride home or call your parents.

Tell your friend you are sorry and want to talk about it.

**DRAW AN ARROW TO MATCH A BOX ON THE LEFT WITH A BOX ON THE RIGHT**
